192				It is unclear what the posting is all about for Solicitation 0211. The links on the EPS notifier didn't seem to work, taking you directly to submitting a bid. Also, the entire program is on another AMCOM location and there are five amendments. Can you explain?	You are correct. The entire solicitation and amendments are posted to the AMCOM Website location. However, should a Contractor go to the FedBizOpps (FBO) Website and click on the solicitation DAAH23-03-R-0211, then click either (on solicitation and amendment), the next prompt will allow you to start an Offer/Bid <b>OR</b> allows you to click on "Return to Current AMCOM Business Opportunity". When you do so, it takes you to the AMCOM Business Opportunity Webpage and allows you to select "Fort Rucker Aircraft Maintenance". This brings you back to the solicitation and all five (5) amendments. At the FBO website, if you were to select "Modification to Synopsis" this would alert you to go to the AMCOM Webpage for the solicitation and all its amendments. Further, your company POC is notified via Email when solicitation/amendments are posted.
